### DESCRIPTION OF ACCIDENT

(Brief narrative of accident. Include statement of responsibility and recommendations for action to prevent repetition)

Plane #42-95160 was seen by the undersigned, Major James W. Kahl to come through the lower layer of overcast on its back in a spin. One wing tip, from the region of the outside engine was mission. Cause of the accident is unknown but it is highly probable that the accident was a result of an air collision. (No other case of plane cream on this date is known. Suggest higher headquarters be questioned on this matter). Plane creamed near an English house and explosed. Unexplosed fragmentation bombs were on board. (Two fire fighters were killed when an explosion occurred when the fire fighters had gone to work on the flames).

Major, M. Major,

Investigating Officer
